

Newels

12

from this expansive grouping of detailed components will personalize your staircase.

Wood Balusters

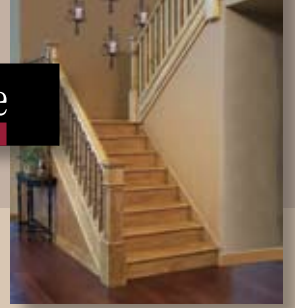

13

Pin-top Balusters and Metal Balusters fit under most Rails in this guide. Reference MBS (Maximum Baluster Size) to determine if Square-top Balusters will fit under Rail. • Bases of Balusters are square, unless noted by [*] which indicates round or octagon. • Fluting and unique turning designs, including Octagon, Twist, and Rope, may be added to many of our Newels and Balusters to create a custom look. Contact your Customer Service Representative for details.

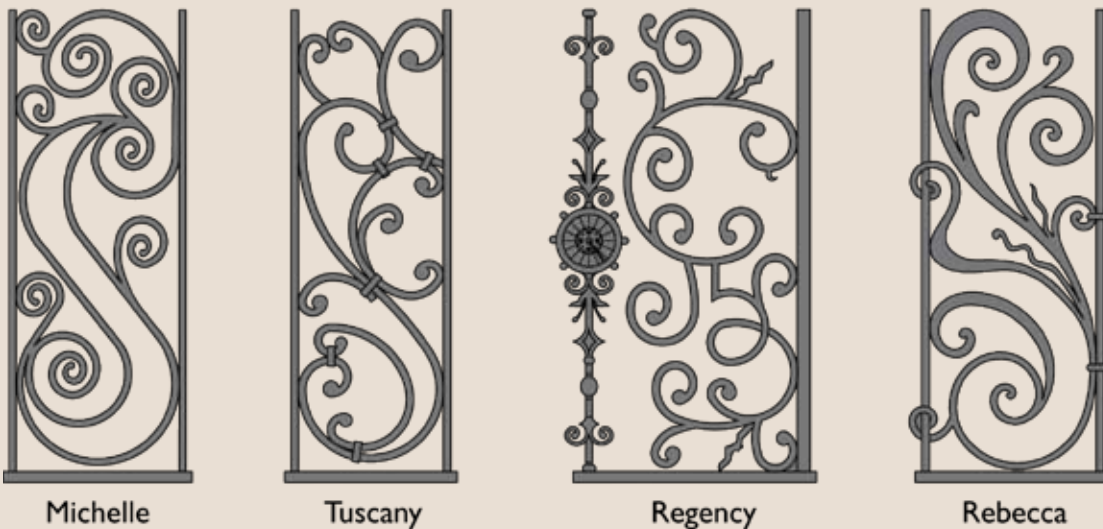

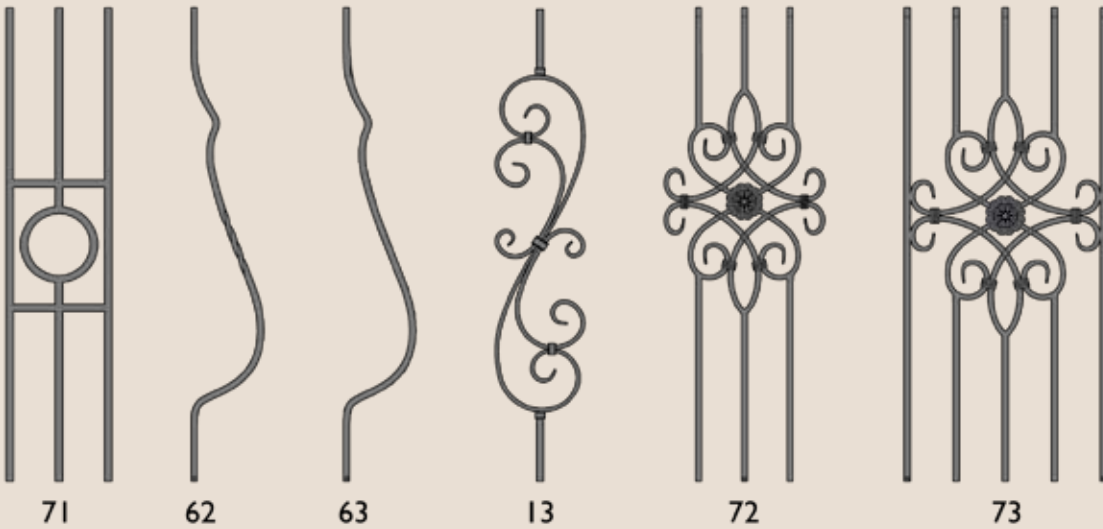

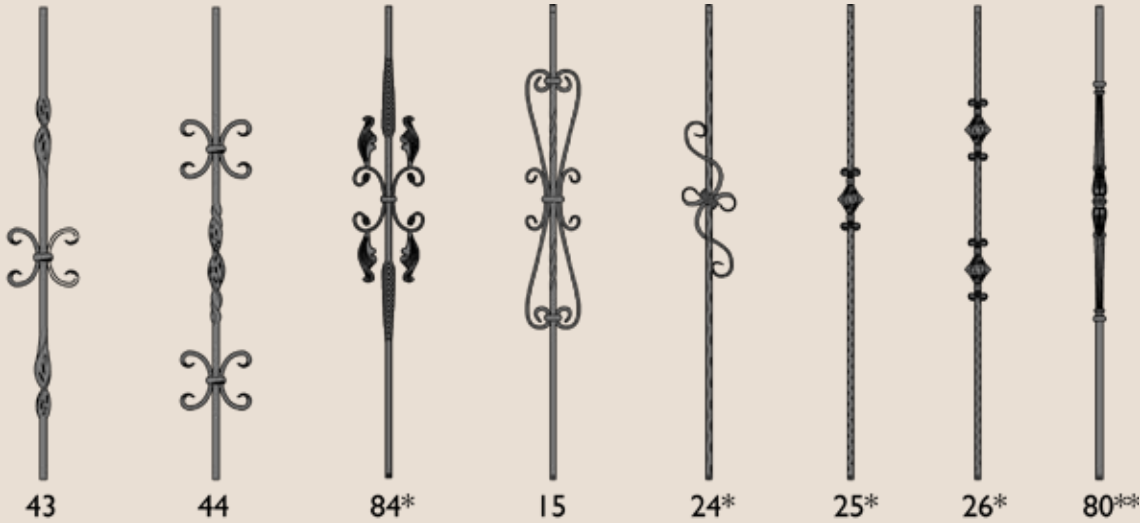

Panel Balustrade

Metal Balusters

Metal Balusters are 1/2", except [*] denotes 9/16" and [**] denotes 5/8".
All Rails will accommodate Metal Balusters; we recommend the smaller profiles.

Rails
