■ 1/2" METAL

IRON BALUSTERS ARE 1/2"; UNLESS NOTED BY * ARE 9/16"

The Builder's Choice "Basic" Series provides "rail over wall cap" design and carpet-grade or hardwood staircases. A remarkable combination of strength and beauty that works well in conservative plans or production applications.

The Builder's Choice "Premium" Series is our best overall value! It provides furniture-quality staircases that feature open stringers and balusters that terminate into open-ended stair treads.

All of the components offered in the Builder's Choice Series are stocked by Designed Stairs for constant availability.
